MEMORANDUM FOR: Deputy Director for Administration

VIA:

Comptroller

Director of Information Technology

Director of Finance

FROM:

John M. Ray

Director of Logistics

SUBJECT:

Consolidation of Maintenance Contracts Covering Wang Workstations and Terminals

1. The purpose of this memorandum is to request your assistance in reducing the paperwork and costs associated with contracting for maintenance of Wang workstations and terminals. The cost of maintaining Wang workstations and terminals has steadily increased. So far this fiscal year, Procurement Division has issued an estimated contract actions with an estimated dollar value of these figures cover maintenance costs for both classified and unclassified contracts.

25X1 25X1

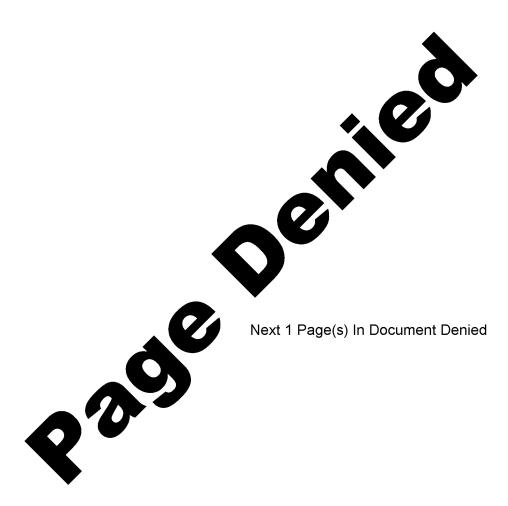

25X1

25X1

2. We have had several meetings with Wang corporation officials to discuss ways to reduce our maintenance costs and to decrease the administrative burdens associated with our current practices. Wang has agreed to offer the Agency a volume discount based upon the dollar value of one or two contracts as opposed to the approximately contracts which are currently in existence. Consolidation of the into two contracts, one classified and the other unclassified, offers much benefit to the contractor and to the Agency. We are very much interested in the opportunity to negotiate a volume discount with Wang and to realize a reduction in the overhead costs associated with the issuance, administration, and settlement of contracts. In order to achieve these objectives, we recommend that one of the three options set forth below be implemented:

## 29 August 1986

MEMORANDUM FOR:	DDA Management Staff	25
FROM:	Chief, Management Division, M&CG/OIT	25
SUBJECT:	Consolidation of Maintenance Contracts Covering Wang Workstations and Terminals	25
REFERENCE:	Memo for the DDA, frm D/OL, same subject, dtd 6 Aug 1986, OL 12063-86	
Agency's Wang ma savings of almos amount of intern savings could be existing contrac position to mana- resources. A pro- gather up existing	Reference, with certain caveats described below, vantageous to the Government. Consolidation of the intenance contracts would result in an estimated dollars. In addition, a significant al paperwork would be avoided. This resource achieved through consolidation of the or so ts into a handful of new contracts. OIT is in a ge these consolidated contracts with no additional actical mechanism must, however, be designed to ng component funds in a way that makes them for use on the new consolidated Wang contracts.	25
the Fiscal Year as sufficient to meet to the OIT budget i.e., the funds where the computing because Wang main not budgeted to street that feet to the total subsection of the computation of the computatio	ve the savings, we would like to propose the ch for FY 1987. The Comptroller, prior to making allotment, should transfer component funds et Wang maintenance requirements for the component t. These funds will be fenced in the OIT budget; will not be subject to OIT internal reprogramming andated cuts. These fenced monies must also not be gany OIT-wide percentage cut. Fencing is required ntenance is a bill that must be paid and OIT has subsidize component Wang maintenance. We also enced monies that are unused at the end of the revert to the Comptroller to meet Agency-wide	25
3. One probl	lem is the method of estimating the required

## CONFIDENTIAL

component funding. In FY 1987, we propose that FY 1986 actual expenditures on Wang maintenance (as obtained from the OL CONIF database) be transferred to OIT. Due to the discount for consolidation there will be a surplus with respect to maintaining the FY 1986 inventory. This surplus will be used to fund equipment installed in FY 1986, for which only partial maintenance expenditures were incurred, and equipment installed in FY 1987. Use of the surplus will forestall the requirement for components to continually transfer funds to OIT throughout the Fiscal Year (via Forms 1716) as new equipment requires maintenance. These transfers would be an unacceptable administrative burden. It should be noted that any funding shortfalls in the OIT consolidated account must be considered an Agency problem and not an OIT problem. Once again, we cannot agree to this approach if it requires OIT to subsidize the maintenance of Agency equipment when we have not budgeted for those services.

25X1

4. We will attempt to budget for Wang maintenance as soon as feasible (FY 1990). In FY 1988 and FY 1989, the Comptroller will be called upon to continue to consolidate Wang maintenance monies in a fenced account in the OIT budget.

25X1

25X1

5. OIT requests that the DDA Management Staff negotiate with the Comptroller to implement these procedures. Due to the considerable funds involved (e.g., in the DDS&T, and in the DDO), there may well be significant component resistance. We believe the Comptroller should confront component concerns about the loss of Base resources directly: it will definitely result in considerable Agency-wide saving and a reduction in the OL and OF workloads and, in the short run, direct component savings should be achieved.

25X1

6. Thank you for your help with this matter. If you have any questions on the above approach, please do not hesitate to contact me OIT B&F Officer

25X1 25X1 25X1

or our Wang Action Officer,
